

Fleet Outlook in the New World

Advanced Clean Transportation Online
Event Series

November 10, 2020

Chris Budzynski
Director, Utility Policy

Exelon's Commitment to Transportation Electrification

- We are committed to providing a cleaner and brighter future for our customers and communities
- Exelon's utilities are leading by example in setting goals to electrify our fleet of vehicles
- Electrifying our fleet helps support cleaner air and healthier communities
- Fleet electrification goals will help propel the development of transportation electrification and benefit customers who seek to adopt EVs
- Fleet electrification represents an opportunity for long-term economic development
