

IntelliShift Overview

Connected Field and
Asset Operations

IntelliShift 
a division of VTS

Connected Insights Simple. Intelligent. Powerful.

Solutions anchored on real-time data insights that activate
world-class operational excellence.

The Power of Connected Field and Asset Operations

Harness your information and assets to lower risk and drive efficiencies

Break down silos that exist across teams and departments

Leverage bidirectional data and ensure integrity of your connected systems

Data and Analytics

Leverage your data as a digital currency:
Connecting people, technology, business, and profit

SAFETY / COMPLIANCE

- Improve regulatory posture
- Continuous process updates to reduce risk

EFFICIENCY

- Operational excellence (fuel, hours, etc.)
- Real-time visibility to customers and employees

TECHNOLOGY / INNOVATION

- Connect all your assets with unified view
- Predictive analytics with advanced AI/ML

OPTIMIZED OUTCOMES

- Configurable to meet your unique needs/process
- Better decision-making impacts profitability

The IntelliShift Platform

Core Pillars of the IntelliShift Platform

ANALYZE

Uncover hidden value in your data.

DIGITIZE

Evolve to data-backed, automated, mobile.

PREDICT

Leverage AI/ML to provide better routes, schedules, maintenance, and safety profiles.

CONNECT

Integrate data across systems, OEMs, and ancillary telematics solutions and tech providers.

Maximizing the Value of your Deployment
