IN SECURED
GRANTS & FUNDING
FOR CLIENTS

Grants, rebates, loans, and tax credits are critical to your business as they can offset the high incremental cost of implementing clean transportation programs.

Our team tracks funding programs for a variety of projects, including:

- Vehicle and equipment deployment
- Station construction
- Maintenance garage upgrades
- Research and development
- Demonstration and commercialization

Our Funding 360 Management Process

GOALS

GNA helps clients evaluate funding and project development priorities by:

- Operational needs
- Risk tolerance and financial requirements
- Fuel and/or technology type
- Geographic location and targeted regions

REPORT

GNA ensures you meet ongoing reporting deadlines and stay ahead of tedious administrative requirements that include tracking:

- Vehicle miles traveled
- Emissions reduced
- Funds distributed
- Construction progress

TRACK

GNA maintains relationships with national, state, and local agencies to track program details including:

- Release date
- Available funds
- Eligibility requirements
- Scrappage requirements
- And any additional requirements

APPLY

GNA relies on our extensive experience to develop compelling stories that sell your project by leveraging our knowledge of:

- Technical requirements
- Policy trends
- Market demands
- Funding agency nuances
- Cost effectiveness requirements
